### Government Secrets Sneaked To Soviets

New York, Nov. 14 (AP)—Judith Coplan and Valentin Gubitchev were called into federal court today for trial on charges of conspiracy to commit espionage for Russia.

The little 28-year-old Brunette, formerly a department of justice employee, already is under sentence of 40 months to ten years in prison.

She was convicted in Washington last June 30 of taking secret documents with intent to transmit them to a foreign power. The government girl has been free in bail pending appeal and her second trial here.

Today's trial is the first for Gubitchev, 32-year-old Russian engineer and suspended United Nations employee whom Miss Coplan said she once loved.

### Hiss Called Liar

The Washington trial involved the taking of government secrets. The trial in New York involves the alleged conspiracy of Miss Coplan and Gubitchev, at meetings in this vicinity, to get the secrets into Russian hands.

The second perjury trial of Alger Hiss—which also involves alleged efforts of Russian spies to get U. S. secrets—is set for Thursday.

It, like the Coplan-Gubitchev trial, will be held in the federal courthouse where eleven top U. S. Communist leaders were sentenced recently to prison terms and fines. They were convicted after a nine-month trial on charges of conspiracy to advocate violent overthrow of the government.

Hiss, 45, former high-ranking state department employee, is charged with lying when he deposed before a federal grand jury that he provided department secrets to be forwarded to prewar Soviet spies.

## Ishpeming Iron Mines Reopen

### Ore Digging Resumed On Marquette Range

Ishpeming, Mich., Nov. 14 (AP)—All mining operations in the Marquette iron ore range were scheduled to be resumed today, under steel strike settlements.

Companies getting back into production are the Cleveland Cliffs Iron Co., the leading producer in Marquette county; Inland Steel; and the North Range Mining company.

A total of more than 3,000 Michigan iron miners have been idle since the steel strike began last Oct. 1.

Cleveland Cliffs, which operates 16 mines in Michigan and Minnesota, said open pit miners will be called back for stripping and repair operations.

Alexander C. Brown, president of the firm, said that his company agreed to pay pensions on the pattern of the Bethlehem Steel Corp. settlement with the CIO United Steelworkers.

The firm has had a contributory plan for group insurance and hospitalization in effect for several years, he said.

Inland Steel gave its employees an opportunity to choose between the Bethlehem type contract or the plan the company had in effect before the strike began.

### IONIA INMATE ESCAPES

Ionia (AP)—Sheriff's officers are looking for 32-year-old Clarence Alexander, of Detroit, who escaped Sunday from the Ionia State Hospital where he had been held a year and a half in the slaying of his wife. Officers said Alexander is not dangerous.

## Contracts End Steel Walkout

### Smaller Plants Fall In Line On Pensions

Pittsburgh, Nov. 14 (AP)—Little steel companies are falling in line with strike-ending contracts as the mighty steel industry roars toward full production.

Over the weekend at least five new agreements were reached with the powerful CIO United Steelworkers.

Less than 100,000 unionists remain on strike. More agreements are expected momentarily from the holdout companies.

The new agreements, without exception, are following the general pattern of the contract signed with Bethlehem Steel company.

Bethlehem, first big producer to sign, broke the back of the strike. And big U. S. Steel corporation, which signed for its 170,000 steelworkers, virtually ended the walkout when it capitulated last Friday.

After Bethlehem signed, there was a lag but Jones and Laughlin Steel corporation decided to come into the fold. Then came Republic, Youngstown Sheet and Tube and Great Lakes Steel.

Finally big steel signed. So did Inland Steel a few hours later.

And, with Wheeling Steel during the weekend, the union got new contract signatures from these companies: Oliver Iron and Steel, Pittsburgh; Mullins Manufacturing company with plants at Salem and Warren, Ohio; the Cleveland Cliffs Iron company, and the Atlantic Steel company at Atlanta, Ga.

The firm has had a contributory plan for group insurance and hospitalization in effect for several years, he said.

Inland Steel gave its employees an opportunity to choose between the Bethlehem type contract or the plan the company had in effect before the strike began.

## White House Gets Weekend Report On Coal Deadlock

By HAROLD W. WARD

Washington, Nov. 14 (AP)—Chief Conciliator Cyrus S. Ching scheduled another trip to the White House today to report on week-end developments—or lack of them—in the coal deadlock.

The new suggestion of John L. Lewis that soft coal operators drop in and talk contract when he returned to the capital today got no rush of acceptance from the mine owners.

Most operator spokesmen were unavailable for direct comment on the statement of a Lewis aide that the mine union president awaited their "convenience," the reaction was summed up this way

by one leading industry representative:

"John knows that if he is really serious about wanting to talk contract, all he has to do is to pick up the telephone. He has not done that."

The National Coal Association said in a week-end statement that another coal strike Dec. 1 is "unthinkable." They said Lewis' unionists are willing and eager to dig coal and that so are a lot of others.

Ching and his associates were understood to be against delaying presidential action beyond this week. What Ching was recommending to President Truman, however, was his own secret.

Most observers thought Ching favored the appointment of a fact-finding board with power to recommend a settlement of the six-months old coal deadlock. That was what he proposed in the steel dispute, and Ching is believed to think the same thing should be offered to the parties in the coal stalemate.

Appointment of any such board would be accompanied by an appeal by President Truman to the miners to stay on the job and not walk out December 1, when their present three-week Armistice expires.

As an alternative, the president may invoke the Taft-Hartley Act, which also provides for a fact board, but one without power to make any recommendations. The big factor in favor of using the labor law's emergency provisions is that it also calls for seeking an 80-day injunction, which would keep the miners in the pits until late January under court order.

## Girl May Give Clue In Killing At Ohio State

### Young Student Held On Murder Charge

Columbus, O., Nov. 14 (AP)—An argument with his girl friend and a reprimand from fraternity brothers angered James D. Heer prior to the fatal shooting of a fraternity brother, Detective Sgt. Lowell V. Sheets said today.

The officer, after questioning the 20-year-old Ohio State University freshman, reported Heer said he was "going to get a gun and start out on a criminal orgy."

James T. McKeown, 21, a senior and managing editor of the university's student daily, was shot to death early Saturday when he tried to take a .45 caliber automatic pistol from Heer.

The shooting, which occurred in front of the Delta Tau Delta fraternity house, followed a fraternity cocktail party and dance.

Detective Sgt. Sheets described Heer's argument with 22-year-old Joyce Crafton of Cleveland as a possible "key" to developments in culminating in the slaying.

### Advances Resisted

Sheets' account of the events follows:

"After the homecoming dance of the fraternity, Heer took his 'date' to the home of his aunt and uncle."

"They were driven there by John W. Johnson, 20, of Shaker Heights, another fraternity brother, and his date."

"En route to his aunt and uncle's home, Heer argued with Miss Crafton and when they arrived at the home he refused at first to leave the car and accompany her to the door."

"Johnson censured him and told him that if he didn't take the girl up to the house, he (Johnson) would not drive Heer back to the fraternity house."

"Heer then took the girl to the house and went with her to her room."

"There he attempted to make improper advances, but Miss Crafton resisted."

"Heer stomped from the room, stating Miss Crafton would read plenty about him in the newspapers."

McKeown had just arrived at the fraternity house when he saw Heer running from the place, pursued by fraternity brothers."

McKeown was circling behind Heer, awaiting an opportunity to grab the pistol, when he was shot."

A first degree murder charge was to be filed against Heer today."

## Acheson To Tackle Drive For Halting Communism In Asia

By JOHN M. HIGHTOWER

Washington, Nov. 14 (AP)—With western unity newly-reinforced in Europe, Secretary of State Acheson returns to Washington this week. He will take up next several important decisions in the drive to halt Communism in Asia.

Work on the drafting of a Japanese peace treaty is expected to get a new impetus from the state department chief soon after his arrival. New steps are due, too, to clarify American policies with respect to the Chinese situation.

Acheson's most immediate step, however, will be to join with President Truman in welcoming the Shah of Iran. They will discuss measures for further strengthening the anti-Communist position in the strategic line for which Greece is one anchor and Iran is the other.

Acheson is due here Tuesday at the end of a week-long trip to Paris. While on the visit he talked with British and French foreign ministers on the organization of Western Europe including Germany and then made a flying tour of key points in Western Germany itself.

Administration officials here shared the confidence which Acheson has displayed in his European statements, that the Paris meeting made solid progress toward solving the great problems of Europe's future. In Acheson's opinion these problems are mainly to win a high degree of political and economic unity among the free nations of Western Europe and to have those nations accept Germany once more as a member of the family.

The program which awaits Acheson here shows by dramatic contrast the extent to which Asia's problems remain unsolved. For it is on issues of the Middle East and Far West that events of next week or ten days seem certain to fix the spotlight now that the Paris conference is out of the way.

## Straits Ferry Jam Cleared Sunday Night

### Peninsula Woods Get Promise Of Snow

By JAMES A. O. CROWE

Associated Press Writer

Predictions of colder weather and some snow in the north were expected to send a last minute rush of hunters into the woods for the opening of the deer season at dawn Tuesday.

The weather man called for snow flurries around the Straits of Mackinac and in the Upper Peninsula. The mild, drizzly weather of the weekend which presumably held up some hesitant nimrods was due to give way to near-freezing temperatures.

The big rush at the best checking point on the movement of hunters—the Straits of Mackinac ferries—slacked off Sunday night.

Lines, which at their peak early Saturday stretched eight miles, had dissolved by Sunday afternoon. Transportation of the multitude of cars on Saturday had been delayed, however, by a 50 mile wind and heavy rain which slowed the five boats.

## Expect Ore Shipping In 'Full Swing' Here Soon

Three ore carriers are scheduled to arrive at the C&NW docks in Escanaba within the next few days, marking the end of the long steel and mine strike that has tied up Great Lakes ore shipping since early October.

In most Upper Peninsula iron mines the men were going back to work today and the flow of ore to Escanaba, to Marquette and Ashland shipping points is being resumed.

Lee McMillan, C&NW dock agent at Escanaba, reported today

that the Str. E. W. Mudge of the Hanna line is scheduled to arrive here tonight. Two others, the Str. Ishpeming of the Cleveland Cliffs company, and the Str. L. W. Hill of the Hanna line, are due Thursday and Saturday, respectively.

Clearing from Escanaba over the weekend was the Str. Standard Portland Cement with about 9,200 tons of ore from non-union Bradley and Cornell open pit mine near Iron Mountain. This mine has supplied a trickle of ore moving out of Escanaba during the otherwise strike-closed period.

Steamer scheduling is still uncertain and more boats are expected this week than those named, McMillan said.

Additional boats will come in after Saturday and the shipping season at Escanaba will continue through November and possibly into early December. Last year the shipping season here ended on Dec. 2.

"We figure that the docks will be in full swing here by the end of the week," McMillan said.

Dock workmen are being called back a few at a time as they are needed and they will have a few more weeks of employment before the season ends. About 75 men were laid off when the steel strike closed the steel industry and the mines after Oct. 1.

Plans are being made at Marquette and Ashland to resume ore shipping, but at Duluth and Superior one of the largest producers, the Oliver Mining company, will not resume shipments again this year. Ore shipments from the head of the lakes ended Oct. 12.

R. T. Elstad, president of the Oliver Mining company, in announcing settlement of the strike, said the miners would return to work "as promptly as operating conditions made possible."

"Ore movements will not be resumed due to the lateness of the season, and our work will be limited to stripping, underground mining, maintenance and other usual winter activity."

On the Menominee range, chief supplier of ore shipped from the CNW docks at Escanaba, 10 of the 12 stock mines in Iron county reopened today following agreements between the miners and the managers.

## Rural Phone Loans Set Up

REA Is Empowered To Give Service

The federal rural electrification act with an amendment opening the way for financing of rural telephone systems under the Rural Electrification Administration was signed into law by President Truman on Oct. 28, but it will be several weeks before the agency is ready to act on loan applications, it is reported by REA Administrator Claude R. Wickard. The REA is under jurisdiction of the U. S. Department of Agriculture.

Purpose of the amended act is to open the way for rural telephone development, similar to the rural electrification program. Those eligible for government loans are companies already providing rural telephone service or new companies, cooperatives, non-profit, limited dividend or mutual associations.

Loans may be made for the purpose of financing the improvement, expansion, construction, acquisition and operation of rural telephone lines and up to 40 per cent of any loan may be used to refinance existing indebtedness where such refinancing is necessary to furnish or improve rural service.

Basic conditions that must be met before a loan can be made are:

1—Assurance must be given that the loan will assure the availability of adequate telephone service to the widest number of rural users of such service.

2—It must be shown that security for the requested loan is reasonably adequate and that the loan will be repaid with interest within the specified time. (Maximum of 35 years at 2 per cent).

In addition, an applicant subject to such requirement under state law, must have a certificate of convenience and necessity from the state regulatory body. In case an applicant is not subject to this requirement, assurance is required that the loan will not result in duplication of lines, facilities or systems providing reasonably adequate services.

Public bodies, such as municipalities or other government units are not eligible for loans under the act. Congress has authorized \$25,000,000 for loan funds and \$250,000 for administrative expenses in putting provisions of the act into effect.

## Seek Industries At Hermansville

Sites Available For Factories

Hermansville has renewed its promotion to induce small industrial enterprises to locate in the village and utilize factory sites and buildings left idle by suspension of operations of the Wisconsin Land & Lumber company, which founded the community and was its principal industry for many years.

A new two-color pamphlet has been published, bringing up to date information on what Hermansville has to offer industry in available buildings, labor supply, proximity to raw materials as well as the recreational appeal of the area for plant workers.

G. Harold Earle of Hermansville, owner of the inactive Wisconsin Land & Lumber company and one of the leaders of Hermansville's industrial development committee, said the promotion will emphasize that Hermansville is no longer to be regarded as a "company-owned" town.

"The time has long since passed," Earle said, "when Hermansville should be a company town controlled or dominated in any way by any individual or family. It is our hope to see it develop as a community of many and varied wholly-independent enterprises as any good permanent American community should be."

The new pamphlet a revision of one published about two years ago, has a two-color map of the community showing locations of available plants, residential areas, rail facilities and offering other information. Descriptions on 13 industrial buildings available are also listed and facts outlined concerning living conditions, tax rates, etc. An aerial photograph shows several of the buildings.

## Stonington Grange Wins First In State Contest

The Bay de Noc Grange at Stonington won first place in Michigan in the State Grange community service contest for 1949 and was awarded top prize money of \$200 in U. S. savings bonds, it was announced today by Peder Pedersen, Bay de Noc Grange master.

Restoration of old Peninsula Point lighthouse as a recreation site and place of historic interest was the project entered in the contest by the Bay de Noc Grange.

W. G. Armstrong, master of the Michigan State Grange, informed

the Bay de Noc chapter that it had placed first in the state-wide Grange community service contest and enclosed the two \$100 series F savings bonds.

The Grange community service contest is sponsored by the Sears Roebuck Foundation, and S. J. Condon, director, congratulated the Bay de Noc Grange on its successes.

The Bay de Noc Grange may still have an opportunity to win additional awards in the National Grange community service contest sponsored by the Sears Roebuck Foundation. Winners in the national contest, with a top prize of \$10,000 are not expected to be announced until about mid-December.

Old Peninsula Point lighthouse, built in 1863, was proposed to be razed by the federal government because the U. S. Forest Service lacked funds for its maintenance. The farmers of Stonington, members of the Bay de Noc Grange, entered into an agreement with the government to care for and control the old lighthouse building, long a landmark in this area.

The Grange raised funds to purchase materials and the members donated their labor to repair and clean the lighthouse and to open it to public inspection during the summer season.

Next summer the Bay de Noc Grange plans to obtain the services of a custodian at the old lighthouse and do additional repair work. The Forest Service maintains the lighthouse area as a recreation site.

### One Last Plea To Deer Hunters

THE annual deer hunting season opens tomorrow and from every indication, there will be hunters lurking behind practically every bush from one end of the peninsula to the other. Deer are reported to be more plentiful than in past years as a result of a moderate winter.

Once again we appeal to hunters to exercise their best judgment in the woods. Be sure your target is a legal male deer before you pull the trigger on that high-powered rifle. If you're sure you can see antlers of legal size, it's not likely that you'll blow out the brains of your hunting companion. Remember the rustle you hear in the woods may not be a deer at all but perhaps it's one of your pals.

Be sure to carry a reliable compass with you and trust your compass if you should become lost. Many hunters have roamed aimlessly around the woods, generally in a circle, because they lost confidence in their compass. Carry a supply of matches and be sure they are protected from dampness. You'll need them for a campfire if you become lost and darkness overtakes you.

Hunting safety is a matter of good judgment.

### Stadium Relocation Plan Studied

IF the school board should decide to relocate the high school stadium for better accessibility to the proposed new high school, the city recreational site at the water tower offers an ideal location. It is centrally located in the community and reasonably close to the probable site of the new school. These are advantages that deserve careful consideration.

An equally important advantage of such relocation, however, is the benefit of multiple recreation use that would be derived. The area would provide facilities not only for the football stadium but for baseball, a parade grounds, perhaps a softball field, tennis courts, a neighborhood playground, etc., with provisions for adequate seating for spectator sports. School board funds could be supplemented in this development by the city to provide maximum recreational use of the facilities.

The one advantage of retaining the athletic field in its present site is the aspect of natural beauty. Few stadiums offer the scenic view to spectators in the stands that the present stadium does. The scenic view overlooking the water of Bay de Noc appeals to those who cherish esthetic values. Whether this advantage outweighs the practical side of the question, however, is another matter.

If the new high school is to be built in any location near the present junior high school, which now seems probable, the desirability of a more conveniently located athletic field, readily accessible to both the junior and senior high school students, is of considerable importance.

The matter is up for discussion at this time because of the fire that destroyed the bleachers at the present stadium. If the stadium is to be relocated at any time in the foreseeable future, it obviously should be done now before heavy expenditures are made in a new bleacher section at the present site.

### Sherman May Make Unification Work

VICE ADMIRAL Forrest P. Sherman, the newly named Chief of Naval Operations, certainly was taking the calm view when, in speaking of the defense establishment, he said: "I imagine there will be healthy differences of opinion."

Adm. Louis E. Denfeld's ouster from this job and Sherman's appointment do not end the bitter navy-air force controversy recently aired in congress. They merely lead it into a new phase.

First of all, Sherman must be confirmed by the senate. And many senators, talking their cue from representatives angered over Denfeld's abrupt dismissal, may want to question the whole sequence of events that brought it about.

Moreover, the House Armed Services Committee itself has given notice that it will inquire into the Denfeld case.

Until that time, it would be fruitless for any outsider to attempt to gauge the wisdom or propriety of President Truman's action in tossing Denfeld out. The official story is that Secretary of the Navy Matthews found his attitude toward armed forces unity an unsatisfactory one well before the October congressional hearing.

Congressmen declare the firing was a reprisal against Denfeld for speaking his mind to congress. They insist that the administration broke a pledge against reprisals for such testimony.

Who can say now where the real truth lies? We should have a better notion of the facts after congress delves into the case in January. But just offhand it would seem to be a tough task to shatter the official account, for the president's word stands

behind Matthews. However that issue comes out, Sherman has about two months to get under way on the job of bringing the navy back into the unification fold. If he does his preliminary work well, he may lay groundwork solid enough to withstand the fresh turmoil looked for in January.

Sherman was chosen over nine men higher on the navy's seniority ladder, presumably because he is a known supporter of service unity. He helped plan the unification compromise in 1946 that broke a long deadlock between the navy and the other branches.

He did not seek the present appointment. But he brings to the assignment some definite qualifications. He is the youngest (53) chief of naval operations in history. He can be expected to plunge into his work with great vigor, and to approach it with a flexibility of mind desperately needed in the unification crisis.

Every citizen should wish him well. All should hope that he will strive for service unity in the spirit urged recently by General Eisenhower. To the general the important thing is not that one service shall gain a victory over another, but that a military and naval establishment be created which is thoroughly suited to the proper defense of the United States.

It is the country that counts—above the army, the air force or the navy.

### Michigan Tech Dismisses Sittler

THE board of control of the Michigan College of Mines and Technology at Houghton has dismissed Prof. E. V. Sittler from the college faculty as a result of disclosures made recently by Rep. John Bennett of the 12th district. The decision is one that is welcomed and applauded by a majority of Upper Michigan residents.

The appointment of Prof. Sittler may have been made without knowledge of Sittler's Nazi war record. If he had been retained following the disclosure of his record, the action would have constituted an insult to American war veterans and American patriots in general.

Sittler was a native-born American who went to Germany when war clouds were forming in 1938. After the outbreak of war he renounced his American citizenship and joined the Nazi party and worked in the propaganda bureau of the Hitler government. He wrote scripts for the German radio, scripts that were designed to ridicule the Allies and particularly the American soldiers.

He escaped trial as a war criminal but was brought to the United States to testify in a series of treason trials. And then he was hired as a professor of German at Michigan Tech. All of this was brought out by Rep. Bennett who called for the deportation of Sittler after completing his testimony in the treason trials.

Sittler did exactly the same thing as others brought to trial for treason except for one thing. He renounced his citizenship before collaborating with the Nazis. In any case, he hardly is the kind of a man who should be selected as an educator in an American college.

Michigan Tech is well rid of him.

#### MILITARY PREPAREDNESS (The Detroit News)

One never ceases to marvel, in fact, at the contrast between the foresight displayed by humans as individuals and their lack of that quality as nations or governments. A man—let's say a congressman—will scrimp and save all his life to provide "security" in old age for himself and family. The same congressman will be unable to look so much as two years ahead in his votes on national security.

This newspaper is for every effort to bring about a safeguarded world-wide disarmament, but until that becomes possible, we think the country will be wise to place and keep itself in an attitude of military readiness.

Portentous means, "ominous; of the nature of a portent." Not "pore-TEN-shuss" or "pore-TEN-choo-uss." Note that the third syllable is -tous. Better say: pore-TEN-tuss.

Quebec, province in Canada, and the capital of the province; kwi-BECK, French Canadians spell Quebec with the acute accent over the first "e," and pronounce it: kay-BECK. The origin of Quebec is uncertain. One theory is that it is a French spelling of an Algonquian word for strait or sudden narrowing.

Another theory is that when Jacques Cartier discovered the site of the city, one of his sailors exclaimed as they sailed around the bold headland, "Quel bec!" (What a break!)

Rapine is often heard as "RAY-peon." The word stems in the Latin rapio, "to seize; to snatch," the same root which gives us the words rapid, rapt, rapture, rape. It is strange but true that rapine, rapid, rapture, and rape have the same literal meaning, "to seize and carry away." Accent rapine on the first syllable, and rhyme the second with in, pin, thus: RAP-in.

The word posthumous is widely mispronounced "post-HEW-muss." Posthumous is a book word that seldom occurs in conversation. It is, therefore, far more likely to be mispronounced than a familiar word. Posthumous is accented on the first syllable, which has the short "o" sound as in possible, thus: POSS-choo-muss.

Quinine. Even the dictionaries cannot agree on the pronunciation of this word. Consulting several published in America discloses these pronunciations: KWI-nyne; kwi-NEEN; KWIN-in; kwi-nyNE; kin-EEN.

However, KWI-nyne (long "i" in both syllables) prevails in American usage. This column strongly recommends it.

## Tito Does Not Fear Russians

BY MARQUIS CHILDS

(This is the second of two articles of Marquis Childs' exclusive interview with Marshal Tito of Yugoslavia.)

Belgrade, Yugoslavia.—Marshal Tito receives most of his visitors in a huge, high-ceilinged, walnut-paneled office at his private villa on the outskirts of Belgrade. To the left of his desk is a more than life-sized bust of Lenin in dark bronze, which stands on a high pedestal.

As he walks toward you across the length of the room your first impression is that he is shorter and more stocky than his photographs make him appear. He is dressed in a business suit and wears an unobtrusive tie. He walks with the measured gait of a man who has lived a great deal out of doors.

BLOCKADE INEFFECTIVE  
His speech comes in quick, almost abrupt, sentences and so fast that the interpreter is sometimes blustered. In his manner is both authority and assurance. There was never the slightest hesitation about answering questions, although sometimes when the questions amused him he laughed and gave joking replies.

"The Cominform blockade today," Tito said, "has absolutely no effect on Yugoslavia. It did have effect for six or seven months. But now it is meaningless."

This was a reflection of the quiet confidence that Yugoslavia's supreme boss showed throughout the interview. He repeated what he has said several times before—that Soviet Russia will not go to war to destroy a government that has refused to submit to dictation by Moscow.

"Russia's position before the world would prevent her taking any such step," the marshal said. "It would put the Soviet Union in the position of an aggressor, and that is a role she cannot afford."

"Of course, border incidents will continue. They probably even will be stepped up. But that doesn't cause us too much concern. Yes, we have good nerves here. We have had a great deal of experience to harden our nerves in recent years."

#### ARMY NOT INCREASED

As he says this last, Tito grins and his face has a look of a good-natured, slightly impish, small boy.

Marshal Tito denied that there has been any marked increase in the number of men under arms in Yugoslavia. During the summer some troops were kept in service for a month or a month and a half longer than their accustomed duty.

"But that is over now," he said. "We are confident because of our moral unity and our strength. We are a people who esteem our freedom. That is why slanderous things said in the Soviet Union have had no effect."

"The effect has been just the opposite to that intended. Our people have been amazed that such terms could be used by a government like that of the Soviet Union. They have gone so far as to say that we are Fascists."

The blockade, in the first instance, according to Tito, held up some aspects of the five-year plan, particularly the hydro-electric program.

"But now," Tito said, "the handicap has been overcome by shifting the emphasis from large-scale projects to smaller units. The machines we hope to obtain from America will help speed up the program of industrialization that is our goal. The rate of progress will depend upon the rate at which these machines can be purchased and shipped."

"We have great natural resources that we must develop. To do so we must mechanize in order to overcome our shortage in manpower. There may be some delay in the capital investment phase of the program, but in other respects we may even surpass our goals."

#### TOO BUSY FOR JUNKET

I asked Marshal Tito if there was any chance that he would visit America in the near future. The suggestion of such a trip amused him.

"There is too much to do here," he said. "I am far too busy."

I pointed out that even the mention of such a trip would bring down on him the usual slanderous abuse on the Moscow propaganda radio. Again the marshal laughed.

"Such names do not bother me," he said. "But those who make use of such language will have to consider what it does to them in the eyes of the world."

Even from a brief talk with Tito you get a sense of his tremendous concentration of effort and will.

I asked him if it were not possible to reach a bilateral agreement with Italy on the long, vexatious dispute over Trieste, which now is an international zone guarded by British and American troops.

He replied that in view of far more pressing problems he considered this comparatively unimportant at the present time. "You do not need to keep your troops in Trieste," Tito said. "There is nothing to fear from us."

While he may be the dictator over 16,000,000 people of this country, Marshal Tito has none of the outward hallmarks of the dictators of the recent past. There is nothing about him of bluster or swag or arrogance.

But at the same time you can sense that it would be a pretty unhealthy business to get in the way of this man who knows where he is going and means to get there.

realization as "ree-AL-i-ZAY'shun." There is no sanction for the accent on the second syllable. The correct pronunciation is: REE-uh-i-ZAY'shun. Also watch the word realize. Not "REE-lize." Give the word three syllables, thus: REE-uh-lize.

Receipt and recipe are both from the Latin recipere, "to draw back; take in; receive." Until recent years receipt was commonly used in the meaning of "a formula for preparing a dish in cookery," as, a receipt for a cake. Such usage rarely occurs nowadays, the word recipe being used instead.

Receipt is: ri-SEET. Recipe is: RESS-i-pee.

### Good Evening

By Clint Dunathan

DEER FOR SALE—In a recent column we reported that many deer were illegally killed each hunting season and sold by Michigan residents to out-state hunters.

By illegal kill we mean the hunter who shoots more than one buck a season, which is all that his license permits.

The sale of deer is an old and was at one time an honorable profession. Every oldtimer can tell you about the days when "market hunters" made a living from the killing of deer and the sale of venison.

In the city of Escanaba up to the 1890's venison could be purchased in the stores or from peddlers who made the rounds with their wagons. The price of venison per pound was as low as five and ten cents a pound. The only cost to the "market hunter" was for ammunition and hauling the carcasses out of the woods.

MORE THAN EVER—In those days every lumber camp had its "camp hunter" who supplied the cook with venison for the crew. Hunting went on the year around.

Through the years the deer were depleted, not only because of the unregulated killing but also because of timber cutting and other factors that changed feeding conditions for the animals.

Today there are more deer than ever before—and it is possible that the illegal kill and sale of deer is as high as it was back in the days when venison was a commodity on the open market. Protection of the herds by the state, together with reforestation and the natural crop of second-growth timber, has restored the deer population. It has also made less noticeable the effect of "market killing," an illegal but frequent practice.

UNDERGROUND—Unlike earlier times, the killing and sale of deer is now definitely frowned upon. The trade has been driven underground—or at least it is not carried out on the surface.

But the unsuccessful hunter can get a buck—if he is willing to pay the price.

This price varies from a few dollars up to reported high of \$200 for a big buck with a fine rack of antlers, which puts the price at more than \$1 a pound for venison—including the hoofs and other inedible portions.

Sometimes the hunter who is unable to kill a buck for himself is assisted by other members of his party. This is a fairly common custom. If the conservation officers ask the hunter, who already has his deer license filled, why he is in the woods he can always say that he is hunting bear.

THE EVIDENCE—There is statistical proof of this sale of deer in figures on the Michigan deer kill released by the conservation department. Proof at least so far as we are concerned, although the conservation department makes no such statement.

In the Upper Peninsula, for example, the non-resident hunters are killing their licenses. Mark that percentage: Over one-half of the out-state hunters got bucks last year.

How successful were the residents of Michigan who went deer hunting? Only 38.9 per cent shot

bucks, compared to the 53 per cent success of the non-residents!

BEHIND THE FIGURES—It is apparent, even to the most uninquiring mind, that a reason exists for the disparity between those two figures.

Hunters from out-state, many coming to the Upper Peninsula for the first time, clearly should not be superior woodsmen, hunters, and marksmen, as the figures indicate.

And they are not better hunters than the boys who have hunted here most of their lives. No, those non-residents are more successful only because they purchase or are given deer killed by resident hunters.

And they are more successful because they insist after spending considerable money for a long trip to the U. P. that they will not go back home defeated. They are going to take a buck home to Pedunk or Swallow Creek, even if they have to buy it.

HAS BEEN HIGHER—In 1947 the out-state hunters in the Upper Peninsula were 60 per cent successful, compared with 40 per cent for U. P. resident hunters; and in 1946 the ratio was 53 per cent to 41 per cent.

This information is presented only to direct attention to the need for constant public interest in conservation. Although considerable progress in game conservation has been made since 1895 when the first deer license sold for 50 cents, the "market hunter" is still at work.

### Why All The Grieving

Dear Editor:  
Some folks are never satisfied, it seems. The latest grieving around town is because a parade was held this week and the colored Christmas lights were turned on.

I think the Escanaba Chamber of Commerce is to be praised rather than criticized.

The Giant Balloon parade was booked on Wednesday, Nov. 9, because that was the only date that was left open. Cities like Milwaukee and Omaha, which have been booking the parade for several years, took earlier dates than Escanaba.

The parade was not intended as a Christmas opening event. It was decided to hold the event at night so that residents of outlying communities could bring their children after school. Because it was scheduled at night it was decided it would be a good idea to have better lighting on the street and so the Christmas lights and decorations were installed.

The Christmas shopping season will not be officially opened in Escanaba until after Thanksgiving. Chicago, Milwaukee and other cities, however, have already had their Christmas season openings.

The parade was a huge success. It brought thousands of people from surrounding counties. And it did not cost sightseers a cent for admission. The Escanaba Chamber of Commerce paid the bill.

What's all the grieving about? Parade Fan.

## The Washington Merry-Go-Round

BY DREW PEARSON

Los Angeles.—There is one lesson eastern Republicans learned from last week's big Democratic victories which still hasn't percolated to hardheaded California Republicans—namely, the fact that the Grand Old Party is not going to romp back into power with old-fashioned, pre-New Deal candidates.

Even in rock-ribbed Republican Philadelphia which hasn't let a Democrat get a toe hold in its government for half a century, Progressive Democrats staged a significant victory. And in New York City the Republican party did not poll even 25 per cent of the vote.

Here in California, however, the old-line GOPers are still day-dreaming about unseating Progressive Republican Governor Earl Warren and running a conservative instead. Republican big business considers Warren too liberal, too friendly to labor, too sympathetic to the old people of California.

What they don't realize is that Warren was elected chiefly because he has swung Democratic and borderline voters. And today, with Jimmy Roosevelt's winning smile already rolling up a big popular following, no Republican would have a chance in next year's gubernatorial race except Earl Warren.

As a further result of last week's eastern defeats, GOP leaders are wondering more and more whether they won't have to pick either General Eisenhower or Governor Warren once he got in the White House. But they also know that he has consistently won huge blocks of Democratic and labor votes, and they are beginning to realize that perhaps that is the only way they can ever get the Grand Old Party back in the saddle.

Note 1—New Jersey's Governor Alfred Driscoll, one of the few Republicans re-elected last week, is a hard-working Progressive frequently at odds with reactionary leaders of his party.

Note 2—General Eisenhower, still a great and glamorous figure, may be politically tarnished by 1952. By that time, with more tax money paid out for armament, a lot of people may be taking seriously Ike's advice that no military man should run for president.

#### JUNKETING CONGRESSMAN

Back in 1945 genial Congressman Victor Wickersham, Oklahoma Democrat, swore never to take another airplane junket—after Speaker Rayburn asked him to pay out of his own pocket for an unauthorized trip to Moscow.

In the end, the taxpayers paid the bill—just as they will also pay the bill for another vacation-by-air for the same congressman this year. For, despite Wickersham's vehement vow not to take another free air ride, he has just returned from an air junket to Alaska. What's more, his name has been submitted for another free air trip to South America.

This year Wickersham is traveling under the auspices of the house merchant marine and fisheries committee, which has little official interest in Alaska and even less in South America.

Under new regulations, congress must certify that a trip is in the interest of national defense before a congressman can obtain a free air force plane. Nevertheless Virginia's Schuyler Bland, chairman of the marine and fisheries committee, has stated in a formal letter that it is necessary to national defense for Wickersham to fly around South America.

His junket will require a special plane just to chauffeur Wickersham from country to country. Only one other passenger is listed for the trip—Congressman Tom Fugate of Virginia.

Note—Apparently Wickersham has now forgotten how he nearly had to pay the bill for the military plane that flew him to Moscow in 1945. When he returned, he gave congress a lengthy report and Speaker Sam Rayburn a wrist watch. This did not appease Sam, however. He said the trip wasn't authorized and that Wickersham would have to pay his own fare, though after a personal call by Wickersham to President Truman in Potsdam and a rumorm

## C&NW Veterans Hold Meeting

### Cassidy Honored At Banquet

The fourth annual banquet of the Peninsula division chapter of the Veterans' Association of the Chicago and North Western railway was held at Terrace Gardens Sunday with a record-breaking attendance of 225 persons.

T. M. Cassidy, retiring superintendent of the Peninsula division, was the honored guest at the banquet. Mr. Cassidy, whose retirement will be effective Nov. 30, was presented with a set of golf clubs, and Mrs. Cassidy received a traveling case. The presentation was made on behalf of the Veterans' association members by Leonard Reynolds, new Peninsula division head.

George Harvey presided as toastmaster.

Officers of the Peninsula division chapter were reelected at Sunday's meeting. They are: President, W. V. Leppla; vice president, George W. Walter; and secretary, R. J. Moras. Also elected was a local board of directors composed of Iver J. Barber, Mike O'Donnell and Herbert Sundelius. The membership voted to hold the 1950 picnic at Pioneer Trail park, near Escanaba.

The program was largely devoted to humor and entertainment, and was thoroughly enjoyed by all present. W. H. Roberts of Chicago, systems president of the Veterans' association, reported there are nearly 5,600 members. W. C. Upton of Lake Villa, Ill., system secretary, who worked on the Peninsula division 45 years ago, spoke briefly while C. M. Scanlon, Chicago, member of the system's board of directors and a C&NW employee for 50 years, entertained the banquet crowd with two railroad ditties, "Next World Railroad" and "Growing Up Railroad Style."

The Witham twins, Nancy and Mary, entertained with three songs, with Mrs. Nyal Witham playing the piano accompaniment. Earl Casey sang two solos, with Mrs. W. C. Ramspeck as his accompanist.

companion. LaChapelle's Trio furnished music during the dinner.

Toastmaster Harvey introduced the following pensioners at the meeting: T. M. Cassidy, Peninsula division superintendent; M. E. Vandenboom, engine house foreman; Art J. Sandberg, machinist; F. Van Harpen, water supply foreman; C. R. Henderson, agent; J. E. Brown and M. L. LaPlante, conductors; Tom Nelson, pumper; H. J. Bagley, Dona Duranceau, conductors; Axel Erickson, road foreman, Clinton, Ia.; Axel Johnson, scale inspector; T. W. Loos and M. J. Tonkin, chief train dispatchers; J. B. Moore, master mechanic; C. F. Moerer, chief train dispatcher, Green Bay; D. L. McRae, engineer, Crystal Falls; F. Nienaber, conductor; Peter Olson, water supply foreman; O. M. Mickelson, chief clerk; Gust Leaf, B&B carpenter; Peter Newton, engineer; and Peter Gidland, line-man, Iron Mountain.

Guests from out-of-town included A. P. Johnson, station agent at Negaunee the past 65 years; J. F. Sainsbury, Green Bay, Lake Shore division superintendent; J. L. Batdorf, Chicago, passenger service agent; E. G. Day and August Syverson, of the Lake Shore & Ishpeming railway, Marquette.

#### Millage Election

Garden, Mich.—Just 100 voters exercised their right of ballot Thursday but one ballot was spoiled. A total of 33 approved and 66 disapproved of the two mill tax for roads. Serving on the board at Garden were Edward LaMotte, chairman, Charles Gauthier, Mrs. Hazel Hazen, Mrs. George Boudreau sr., and Mrs. Ernest Tatrow. Gatekeepers were Miss Ida Tatrow and Nelson Tatrow. Charles Olmsted and Albert Tatrow served at the second precinct, Isabella, where only one voter out of fifteen approved of the tax.

#### Family Night

Members of the Congregational parish attended a family night with Rev. and Mrs. Serge Hummon in the Community hall Wednesday night and enjoyed games and square dancing before the pastor showed Conservation pictures of the "Red Fox" and "Lumbering in Michigan." Refreshments were served to close activities. This is the last social gathering to be attended here by the Hummons who are leaving for work in the parish at Arena, Wis., very soon.

### Pythian Officers Make Pilgrimage To Eagle Harbor

Eagle Harbor, Mich.—In this popular resort at the tip of the Keweenaw peninsula the season for visitors usually closes on Labor Day except for those hardy souls who came to indulge in winter sports, but an unusual group of visitors arrived Friday to institute what appears to be a new era for the Knight of Pythias lodge of Michigan.

The group consisted of Grand Lodge officers headed by Grand Chancellor Smith of Pontiac, and members of subordinate lodges of Laurium, Marquette and Ishpeming and they came to initiate members of the little community into the mysteries of the Pythian order.

It was a new lodge being formed in the school house where nearly ninety years ago Justus Rathbone, a teacher, wrote the ritual based on the friendship story of Damon and Pythias. Kerosene lanterns hung from the ceiling and were also placed on the desks to provide illumination while the Grand Chancellor and others intoned the words written so long ago.

This idea of a lodge in this Pythian Shrine originated in the mind of Rev. Dr. H. B. Johnson, director of Progress for the Grand Lodge. Twenty-two members of subordinate lodges in the state have become dual members and there are hundreds of applications for a place on the membership roll of this new lodge.

Walter Gries of Ishpeming, Superintendent of the Welfare Department of the Cleveland Cliffs company, and one time warden of Marquette prison, is the chief officer of the lodge. Regular meetings will be held and next summer a great pilgrimage will be made to this place for an out-of-door enclave.

### Schaffer

#### P. T. A. Meeting

Schaffer, Mich.—The November P. T. A. was well attended at the school on Tuesday evening. Mrs. A. Greenwood was appointed on the membership committee. Mrs. L. Maynard and Mrs. Joe LeBeau are on the December lunch committee. A movie made under the supervision of the third and fourth grade teacher, Mrs. C. T. Tounsiant was presented to the group. The third grade movie, named "Little Friends of Mine" was read by Marilyn McInnis and the fourth grade picture named "Spooks" was read by Phyllis Dault. A movie reel on education was shown also. A tasty lunch was served at the end of the meeting by Mrs. Don Fayer and Mrs. E. Briere.

#### Forty Hours Close

The Forty hour devotion ended Tuesday evening at which a group of twelve priests and twelve altar boys participated in the procession of the Blessed Sacrament in the church. After the litanies of the Sacred Heart and various prayers were said, the childrens choir, consisting of fifty children under the direction of Mrs. B. Seymour sang hymns. The closing hymn "Holy God We Praise Thy Name" sung by all the congregation, ended the impressive ceremony.

#### Evening Party

A group of ladies enjoyed a party at the home of Mrs. John

Dault on Thursday evening. The party was sponsored by Mrs. Hil-dur Olson of Bark River. The two game prizes and the guest prize of the evening were won by Mrs. L. Tounsiant. A delicious lunch was served.

Out-of-town guests at the party were Mrs. Alfred Bonamer, Mrs. Helmer Peterson, Mrs. Eugene Auger, Mrs. J. Kintziger, Mrs. Ed Demerise, Mrs. Miles Dupie and Mrs. A. Crepeau from Escanaba.

Mrs. Clarence Martin returned from a week's visit in Chicago. Mrs. I. Racicot is spending a few weeks in Wausau with her sister who is ill.

Mrs. Melvin Racicot returned home Friday from St. Francis hospital where she received treatment the past week.

Bonnie Prince  
Charlie Is One  
Year Old Today

London, Nov. 14 (AP)—It's the back pages for London's party-going debutantes today—a one-year-old with six teeth is giving high society's most exclusive birthday party.

He's Bonnie Prince Charlie, son of Princess Elizabeth and the Duke of Edinburgh, first grandson of King George VI and Queen Elizabeth, and himself a prospective King of England.

Young Charles will receive in his blue and white nursery at his parents' home, Clarence House, here today. His guests will include members of London's titled nursery set. The party will be small, and as quiet as watchful mothers and nurses can keep it.

The birthday cake will weigh 40 pounds. The Prince himself weighs 24 pounds, eight ounces. There'll be one candle atop the cake, which Charles may be permitted to blow out.

He won't get a taste of the massive cake, however. Since Papa Philip is a sailor and cakes for a sailor's house traditionally have a liberal dose of rum, this cake is rum-flavored too. Half a pint to flavor the 40 pounds. But even that little noggin is not for year-old princes. (Remember what those Scottish churchmen said about Aunt Margaret's late hours?)

So parents of the party guests and other grownups will eat the birthday cake. Some may be sent to Charlie's grandparents, at Buckingham Palace.

**Back to Routine**  
After the party, Charlie goes back to the quiet, little-baby routine his mother keeps him on—regular outings in any sort of weather except thunderstorms playing with his toys, eating at his little table, lots of sleep, and whatever else one-year-olds do.

For Charles, this is one of the biggest weeks in his life so far. He says goodbye to his mother Saturday. Princess Elizabeth will fly then to Malta to spend her wedding anniversary Sunday with Prince Philip, on naval duty in the Mediterranean.

Charlie stays at home.

Prince Aly Would  
Like A Girl

By HARVEY HUDSON

Lausanne, Switzerland, Nov. 14 (AP)—Prince Aly Kahn said today that he hopes the baby which his wife, movie actress Rita Hayworth is awaiting will be a girl.

"Naturally, when anyone has a beautiful wife and is very much in love with her, he would like a girl to be just as beautiful and lovely as she is," the prince said in an interview.

"That's a very natural reaction." Rita and Aly are living quietly here in the fashionable Palace Hotel while waiting for the baby. The date of the birth is the subject of much speculation and gossip but nothing definite is known. The prince made no comment on this subject. Most of the unofficial talk centers on late November or early December.

In discussing his preferences about a boy or girl, the prince also said, "of course, I'll be very, very happy with either a boy or a girl."

He has pointed out however that his family runs to boys.

His father the Aga Kahn, has two sons—Aly and Aly's half-brother Prince Sadruddin.

Aly himself has two sons by a previous marriage. The two boys, Prince Karim Aga, 12, and Prince Amyn Mohammed, 11, are now in school at Rolle Switzerland, about 15 miles from Lausanne. They were in yesterday to visit their father.

Aly said that the couple has no present plans for the trip to the United States but that both of them are very anxious to make the trip. "Right now, we can't make any plans," he said. "We're just waiting for the baby."

**Plans Indefinite**  
The prince has taken a chalet at Gstaad, in the winter sports region of Switzerland. He said they expect to go there after the baby arrives. His two boys will also be at Gstaad since the school which they attend moves there for the winter season.

"Naturally, we want very much to go to the United States. My wife has many, many friends there, of course, and I have many happy memories of my two visits

Louisville Girl  
Is The Bride Of  
John L. Flink

The post chapel at Fort Knox, Kentucky, its altars banked with chrysanthemums, was the setting for the wedding Thursday evening, November 10, of Emma Belle Taylor, daughter of Mrs. Emma Belle Kaufman, of Louisville, and John Linn Flink, son of Mr. and Mrs. Helmer Flink of Lake Shore Drive, Escanaba.

The candlelight service was read by Chaplain Koepke. Bridal music including "Because," "Oh Promise Me," "Clair de Lune" and "Again" and the traditional processional and recessional were played by Corporal Drake, organist.

Bridal attendants were Mr. and Mrs. Merle R. Taylor, brother and sister-in-law of the bride.

The bride wore a balerina length dress of tulle lace over peach tulle and she carried

bronze mums centered with a yellow orchid. Her matron of honor wore a ballerina length dress of beige lace over white brocade satin and she carried bronze mums.

Mrs. Kaufman attended the wedding in a plum colored crepe dress with which she wore plum colored hat, black accessories and a corsage of lavender mums. Mrs. Flink wore teal blue with a black hat and black accessories and copper mums formed her corsage.

**Reception At Home**  
A reception for guests at the home of the bride's mother followed the ceremony. The newlyweds, after a honeymoon in Cincinnati Lafayette, Ind., and Indianapolis, will live in Louisville at 665 South 39th.

Guests at the wedding were Mr. and Mrs. Helmer Flink, Miss Louise Flink and Mrs. Thelma Schram of Escanaba and Melvin Derpinghaus of Kingsford.

Escanabans Are  
Cegmer Seg Pledges

Billie Daniels and Shirley Jacobson of Escanaba, students at Northern Michigan College of Education in Marquette, were accepted as pledges in Cegmer Seg, campus sorority, at a recent ceremony at the home of Mrs. Charles Clucas.

Aly was a liaison officer with the British army and was assigned to the American Sixth army group under the command of Gen. Jacob Devers.

As for any plans that Rita might have to re-enter the movies, Aly said that she always has had it at the back of her mind. He added, "Obviously, there can be no plans now."

He said that he felt certain that if a "suitable vehicle shows up she'd be very happy to go back. She's always said that."

## College Youth Molly-Coddled

Too Much Psychiatry, Ruark Opines

By ROBERT C. RUARK  
Boulder, Colo.,—I swear to John, I don't know what this younger generation's coming to, with its crutches and shortcuts to easy living.

I have been plowing around in the educational pastures and so help me, now they got staff psychiatrists to help the freshmen adjust themselves to what ever freshmen have to adjust themselves to.

I was stopped briefly, when the Denver university kids, unable

to send a cheering section to California for the DU game with St. Mary's, shipped a recorded cheering section to the coast instead. That is correct. The yell leaders and the students recorded some yelps, sent the recordings to Lodi Stadium, and they were beamed at struggling athletes via a loud-speaker setup. The DU's got murdered, just the same, 41-21, despite the canned inspiration.

But the psychiatry angle to college education dragged me away from my preoccupation with the artificially inspired gridiron gladiators. I understand that practically every major school now has a sort of psychiatric infirmary where the kiddies go to cure the colds in their souls as routinely as they seek a panacea for athlete's foot or hangover.

**Freud Dispensary**  
There has been a Freud dispensary at Colorado U. for about eight years now, and they say the undergrads drop in to have their psyches overhauled at regular intervals, to see if their traumas are biting on all eight and their syndromes free from stain, grit, and other harmful ingredients.

Seems the No. 1, first-chop affliction is based on emotional immaturity, followed by "anxiety-tension." Sweet creeping shade of John Held, jr.!

This evidently means that the youngster has pimples on his subconscious as well as on his face, meaning he is not adult in his reactions to his fresh environment. When confronted by a tough situation, he becomes tense, jittery and prone to brood.

I suppose this is the way we are headed, and so my anguished screams will go down as reactionary diversion, but I would thank the soul-probers to keep their

**ALL IS CONFUSION!**—This was supposed to be a preview of the of the hunter's triumphant return from the deer hunt which gets under way tomorrow, but some things seem to have been switched. From the grin on the face of the hunter it is evident he is satisfied. We should be too.

claws off any young of mine, if I had any young of mine.

It is presumptuous to assume that any callow colt of college age is anything but immature, confused, and subject to insecurity, which is all part of being young. The purpose of college, as I saw it a couple of centuries ago, was to try the youngster in the fire—to teach him how to get to be an adult on his own time.

**Profited by Mistakes**  
It was the period of the severing of the mental and temperamental umbilicus; the tossing the young bird out of the parental nest.

Young John out on his own for the first time, started some tentative motions toward manhood; making mistakes, profiting by same, and acquiring some toughness of fiber and singleness of purpose in the process. Young Mary, away from mummy's eagle eye and papa's thumping shoe, was supposed to start practicing to be a woman who must learn to look after her own welfare.

So now we are replacing mother's soft shoulder and father's iron discipline with a canned approximation of same—a wailing

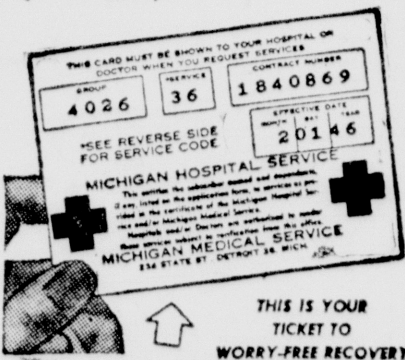

"Because I was a Blue Cross member, my baby was covered, too..."

After he was born, he had to spend an extra month in the hospital—without me. But Blue Cross covered his bills as well as mine!"

Mrs. . . . wife of a BLUE CROSS subscriber with full family coverage, was admitted to the hospital as a maternity case. She was discharged after 9 days, but her baby had to remain in the hospital an extra month for treatment. The total bill—for mother and child—came to \$548. Under BLUE CROSS the baby was protected from birth, and BLUE CROSS covered the charges for both.

## Skandia Annie Oakley Out For Kill Again

Skandia, Mich., (P)—Mrs. Frank Carrier, the north country version of Annie Oakley, is impatient as a bride today.

The reason? Deer season opens this week and Mrs. Carrier, who lays claim to being the state's champion woman buck hunter, is eager to extend her "winning streak." She's bagged a buck every year for the past 14 seasons.

In fact, counting "camp bucks," the sharp-eyed huntress has downed 18 deer in the 14-year period. (A camp license is issued to parties of four or more hunters and entitles one of them to shoot one buck in addition to the individual limit.)

The record of her kills dates back only to 1935, although she was a confirmed nimrod long before then.

Now white-haired, Mrs. Carrier shot her first deer, an eight-point buck, when she was 25 years old.

In the necking sector, in terms of pseudo-scientific triple-talk.

We rob our young of so much when we take away their opportunity to make their own mistakes and cover them with their own sound scar tissue of experience. To be young is a wonderful, miserable, glorious, terrible thing, and the people who tamper with youth are themselves sorely in need of psychiatric assistance.

But right now her thoughts are monopolized by visions of bucks crashing through the forests. A few days before the opening of the season Mrs. Carrier admitted she was excited over the prospects of extending her successful record to 15 seasons in a row—alright—but confessed a secret desire.

"I've bagged lot of bucks," she said, "but I've never killed a bear. That's the height of my ambition."

## Realistic Toys Do Everything But Breathe

Realism is what the youngsters will get with their toys this Christmas. Trying out toys that really "do things"—Sister (above) hangs out her diaper service from a lined plastic container which comes ready for wash-day with line and clothes pins. A big-as-life tiger almost climbs a tree (above right) while the rest of this boy's menagerie includes rabbit that chews carrot, barnyard set with cow that gives milk and fish that leap to poles (all with the aid of magnets), pig and musical bear.

## Dr. Townsend Likes His Plan

He Disagrees With Union Program

By DOYLE SMEE  
NEA Staff Correspondent

Cleveland—The picture in the newspaper showed jubilant Bethlehem steel workers cheering over news that their strike had won them \$100-a-month pensions.

A lean, white-haired old doctor looked at the newspaper and shook his head sadly. "These labor people don't realize what they're after," he said firmly. "What they want is security and I maintain they won't get it that way."

This ancient crusader—Dr. Francis E. Townsend—thinks he knows a better way. He has thought so since 1933 when, after watching three old women scrounge food from a garbage can, he wrote a letter to a Long Beach, Calif., newspaper. The letter suggested that the government retire everybody (except criminals) at age 60 on a \$200-a-month pension.

To the everlasting surprise of its author, the letter launched the Townsend Plan for Old-Age Pensions. It boomed, but he never was able to put it over. Now he has a new plan, submitted to the 81st Congress, which he confidently expects will be debated on the House floor during the upcoming session.

The other day Dr. Townsend was visiting his only son, Robert, in Cleveland and attending a round of celebrations of the Townsend Plan's 16th birthday. Robert is the national treasurer

of what is now the "Townsend Plan for National Insurance."

A midwestern country doctor who turned political economist, the elder Townsend still hangs out pieces for the plan's weekly newspaper with the energy of a cub reporter, although he is 82.

He continually repeats his amazement at the way the plan caught on—as it did among the aged, at any rate.

Three months after his initial letter to the editor, Townsend, "the new prophet of plenty," had 70,000 signatures on a petition which would make his plan the law of the land.

Within three years, "Townsend Clubs" were located all over the country, and the movement touched off a Congressional investigation. Dr. Townsend stalked out of the hearings and was on the verge of jail for contempt when President Roosevelt pardoned him.

In 1939, a Townsend Plan bill was defeated 302 to 97 in the House of Representatives. Political observers, however, credited the "Townsend appeal" with setting the stage for liberalizing the Social Security Act, although Dr. Townsend always has criticized Social Security.

During the war the movement waned, but now there is a drive underway to "triple the membership" by January, 1950. Estimates of present membership run vaguely to 5,000,000, but Treasurer Bob Townsend claims "infinitely more followers."

The great hope of the Townsends today is a new bill (HR 2135) buried in the House Ways and Means Committee. Unlike the old Townsend Plan, it does not call for payment of a "fixed" pension. Instead, it would divide among the aged and infirm all the proceeds from a three per cent gross income tax.

Townsend followers will make a big push to get HR 2135 out of committee during the next Congress. Already they claim 179 of the 218 signatures needed.

The kicker in the new plan, as in older ones, is the requirement that a pensioner must spend all the money he gets within 30 days.

"We want to make good marketers out of the 12 or 15 million old folks," Dr. Townsend said. "If they had money to spend there would be no depressions."

The doctor thought he had some pointers for labor in his percentage tax on all incomes. "Why don't they get wise enough to demand that wages be tied to the monthly volume of business done?" he wanted to know.

The fault of strike-bought pensions, Dr. Townsend explained, is that even though workers get the high wages and pensions they want, they still can't control the price system.

The only possible bug Dr. Townsend sees in his old-age insurance plan—opponents say they see plenty of them—is the chance of overproduction. But he's sure we can always find a way to dispose of surplus products.

And as for hoarding that monthly allotment, he said, "why should people hoard if they know they've got a guaranteed income for life?"

With few exceptions, livestock can endure flying at altitudes up to 10,000 feet.

### Corn Production Expected To Rise

Washington (AP)—Higher corn production is expected by the U. S. Department of Agriculture. Department experts have produced hybrids which will give 10 bushels to the acre more than those now used. Hybrid corn revolutionized U. S. farming and boosted production to new high levels.

Department experts say that still other hybrids are being used in different sections of the country. First attempts to use the early hybrids in the South, for example, were dropped because corn bred in Iowa did not grow well there. Now hybrids adapted to the area are being used.

### Wreckage Of Crime In Grocery Store

Chicago (AP)—A robber strode into Hiram Bloodgood's grocery. He shoved Bloodgood against a shelf. Down came a deluge of canned goods.

The robber tried to hurdle the counter, but tripped. Down with him went a pile of boxed eggs and doughnuts. The robber yanked out the cash drawer. The money rained down on the litter of merchandise on the floor.

The robber stooped, plucked a \$20 bill and left, without throwing a single custard pie.

Justice Court  
Busy SaturdayFour Arraigned For  
Game Law Violation

Four people were arraigned before Judge W. G. Stephens in justice court Saturday morning charged with various violations of the state conservation laws.

Lloyd Ayotte of Manistique, arrested by Conservation Officer Ernest Derwin north of Indian Lake, Thursday, pleaded guilty to carrying a shot gun loaded with shells filled with buck shot and was fined \$10 along with \$8.50 costs. Arrangements were made to pay the fine.

Robert Hruska, of Menominee, was arrested in Menominee Friday afternoon and charged with having untaxed traps in his possession. He pleaded guilty as charged and was fined \$10 along with \$8.50 costs. Fine and costs were paid.

Harold Green and Walter Whitman pleaded not guilty to a charge of having deer in their possession when arraigned before Judge Stephens. They were arrested in Hiawatha township late Friday night by Ernest Derwin and assistants. Derwin stated that he came upon the carcass of a young buck and close at hand, lying flat on the ground were the two defendants. Near one of the men was a flashlight, two butcher knives and a knife sharpener. Their case has been set for next Thursday morning.

A warrant is out for James LaFleur, of Hiawatha township, who is charged with headlighting. He will be arraigned some time next week.

No Need Of Getting  
Lost Say Local  
Peace Officers

Anticipating the usual number of cases of lost hunters, local peace officers are issuing a series of timely dos and don'ts to those about to start for the timber and brushlands.

They are as follows:

**What You Should Do—**  
1. Secure map from local Michigan State Conservation Office or Schoolcraft County Sheriff's Department—Mark your hunting camp and hunting area on map.  
2. Don't leave camp without map, matches, compass, knife or ax. BELIEVE YOUR COMPASS.  
3. If lost at dark gather wood, build fire, remain by it. DO NOT BECOME PANICKY.  
4. If lost all night build three fires in a triangular position at day break for searching planes.  
5. If lost do not cross roads and streams or wander aimlessly through woods.

**What We Will Do**  
1. Searching parties will be organized immediately upon notice of lost hunter.  
2. A siren which will remain at one location will be used by searching parties as a signal. If you hear siren answer by shot or voice. If possible make your way out.  
3. At day break planes will join in search for lost hunter. BE SURE TO BUILD YOUR SIGNAL FIRES.

Great Snowy Owl  
Killed On Edge  
Of City Saturday

A great snowy owl with a wing spread of 54 inches was shot Saturday morning at the edge of the city by John Duquette, son of Mr. and Mrs. Henry Duquette of 232 Schoolcraft avenue.

The bird was seen the day before by several people, but at such a distance that most of them thought it was a sea gull. It is a beautiful creature, snowy white with a light mottling of brown. The eyes are large ringed with black with a center of yellow.

Hunting Charge

Antone Leckson of Garden pleaded guilty before Justice of Peace O. C. Estenson Saturday to a charge of killing a doe deer and was sentenced to pay a fine of \$100.00 and court costs of \$8.85, was given a five day jail sentence which was suspended and the gun he used in the violation was ordered confiscated.

He paid the fine and court costs.

Two others, Earl and Clarence Ansell, also of Garden, who officers declare are involved in the case, were also arrested.

They were charged with illegal use of an artificial light in hunting and attempting to kill deer. Arraigned before Justice Estenson they pleaded not guilty and were released under bond of \$200 each.

Both of the Anssels were in the county jail from the day of their arrest, Thursday, Nov. 10, until their arraignment. Trial of the two men was set for Nov. 21. They are said to have retained counsel.

Arrests were made by Conservation Officers Hugh Fisher of Garden and Robert Shiner of Escanaba in Garden township. The deer carcass was seized.

In addition to the penalty imposed on Leckson the law provides that he will be denied the privilege of deer hunting for three seasons, following conviction for violation of a deer law. Inasmuch

# Battles This Saturday Will Tell Tale In Jockeying For Rose Bowl

## Two Crucial Clashes On West Coast

San Francisco, Nov. 14 (P)—Rose Bowl hopes in the west ride on the outcome of two crucial football clashes this weekend.

It is the grand finale of a tumultuous Pacific Coast conference championship campaign. This is the picture as the title contenders go into the last league games Saturday.

California, undisputed leader and only team with neither defeat nor tie this season, can land the big bowl nomination by whipping Stanford in their annual classic. Perhaps even a tie would put California in.

Stanford possibly could attract a majority of the votes with a walloping win over California. High scoring Stanford has lost only one conference encounter, although beaten by Michigan and tied by Santa Clara on the outside.

The third contender is the University of California at Los Angeles, also with one conference loss. Should U. C. L. A. outscore Southern California, particularly by a sizeable count, and California lose to Stanford, the conference fathers might conceivably give U. C. L. A. the Rose Bowl selection.

They will have no problem if the California Bears maintain the pace that has won them nine games in a row.

The Bears beat Big Ten opposition, Wisconsin, 35-20. By 21-7 they measured Santa Clara, the powerful independent that defeated U. C. L. A. 14-0 and tied Stanford, 7-7. In last week's semi-windup, California lapped Oregon, 41-14.

Eagles Still Chug Along Toward Pro Football Playoffs

New York, Nov. 14 (P)—The defending champion Philadelphia Eagles are heading gaily toward their third straight playoff for the National Football League title, but they aren't quite sure who the opposition will be.

Until yesterday, it looked almost certain that the Eagles would play the Los Angeles Rams, who still are leading the Western division. But the 7-7 tie the Rams played with Pittsburgh cast a shadow on their chances.

The Rams of course, still are in the top position to get in the playoff. They show a 6-1-1 record and have a relatively easy schedule ahead—two games with the Chicago Cardinals and one each with the Washington Redskins and the Chicago Bears could do it, though.

# Ann Arbor And Palo Alto Are Showdown Sites

New York, Nov. 14 (P)—It's bowl-plucking time again in college football and two of the juiciest post-season plums may be grown off this week at Ann Arbor, Mich., and Palo Alto, Calif.

Ohio State will meet Michigan, the defending titlist, for the big ten championship at Ann Arbor. Unbeaten, untied California will play improved Stanford at Palo Alto in the Pacific coast headliner.

If both prevail in these important tests, the Buckeyes and Bears can start making traveling plans for Pasadena's Rose Bowl.

Only a bit of additional light is expected to be thrown on the other main New Year's fixtures Saturday as the slap-happy season swings into the home stretch.

Pressure of the autumn grind continued to take its toll last week end, with these important developments:

1. Cornell, Boston University and Wyoming were dumped from the ranks of the major unbeaten-untied teams, leaving only six in the select list: Notre Dame, Army, Oklahoma, California, Virginia and College of the Pacific.

2. Sixth-ranked Cornell and eighth-placed Michigan State saw their places in the first ten imperiled by upsets.

3. Top-rated Notre Dame, held to even terms for a half, exploded for four touchdowns in the final quarter to smother North Carolina, 42-6, while Army, No. 2 in the Associated Press rankings, barely squeezed past Pennsylvania, 14-13.

4. Bowl-bound Oklahoma hurdles one of its main obstacles to a perfect season by whipping Missouri, 27-7.

California, only major team in the country unbeaten and untied for the last two seasons of regular play, continued its march by humbling Oregon, 41-14. Stanford, however, promises to be tough. The Indians walloped Southern Cal a week ago, 34-13, and Saturday romped over Idaho, 63-0.

Army became the only unblemished power in the east after Dartmouth surprisingly took the measure of Cornell, sixth in the national rankings, 16-7.

Big 10 Title At Stake In OSU-UM Game

Michigan Rolls On With 20-7 Win Over Indiana

Ann Arbor, Mich., Nov. 14 (P)—The last act of the University of Michigan's 1949 football drama—and certainly the most important—of them all—comes up here Saturday when the Wolverines meet Ohio State for the Big Ten title.

It isn't an unusual setting. More often than not the conference title has hinged on the Michigan-Buckeye finale of late.

But this one stacks up as the most dramatic windup in years.

Michigan, by winning, can take an unprecedented third straight conference championship outright. An Ohio State victory would sew up the title—and a Rose Bowl appearance—for the Buckeyes.

Had to Hustle

In tuneups last weekend both teams had to hustle to win in the last half.

The Buckeyes unleashed impressive power to overcome a 10-0 deficit and trim Illinois 30-17. Michigan had to break a 7-7 tie with Indiana to win 20-7.

A crowd of 79,200, which assured Michigan would make a home attendance record at the sellout finale with the Bucks, watched a good Indiana team match Michigan punch for punch during two periods and give way to two third period touchdowns that meant the game.

Drives of 43 and 73 yards produced Michigan's two second half scores, with Bob Van Summer, second string wingback, going over for the first and Don Peterson taking Chuck Ortmann's 12-yard jump pass for the second.

Michigan jumped on a Hoosier fumble and converted it into the opening touchdown, with Wally Tensing going the last yard. Indiana came back with a 41-yard drive that ended when Nick Sebek, slick Hoosier passing quarterback, raced the last seven yards. Allis converted Michigan's first two counters but missed the third, while Don Henkle added Indiana's extra point.

Passing Duel

The passing duel between Ortmann and Sebek came off as expected with Ortmann taking the edge. He completed 10 of 19 tries for 160 yards of Michigan's total aerial gain of 165 yards. Sebek, hitting Hallback Bob Robertson and End Clifton Anderson, collected on nine of 17 attempts for 120 yards, which was Indiana's only total gain.

# Look At These Possibilities In The Big 10

Buckeyes, Gophers, Badgers Have Bowl Hopes

Chicago, Nov. 14 (P)—The Rose Bowl hopes of three teams and the undisputed Big Ten championship will hang on a dramatic football finale between co-leaders Michigan and Ohio State at Ann Arbor Saturday.

No schedule-maker could hope for a more blazing climax to a slambang season than Saturday's closing conference round will bring.

In addition to the Ann Arbor super-showdown, Wisconsin and Minnesota—running third and fourth behind the co-leaders—tangle at Minneapolis with the winner an almost certain bowl candidate if Ohio stumbles before Michigan.

Defending Champion Michigan is ineligible for a Pasadena return, but the Wolverines can write an unprecedented feat into the conference record book by beating Ohio—a third straight championship.

Never in the conference's 53-year history has a team won three straight undisputed football titles.

If the Buckeyes, roaring in a four-game winning streak, can defeat Michigan, Big Ten faculty representatives automatically will designate the then champion Buckeyes as the conference Rose Bowl representative.

But if Ohio State loses, or is tied at Michigan, the conference speakers may have to burn the midnight oil next weekend in their bowl balloting.

If Michigan defeats Ohio and Wisconsin beats Minnesota, the Badgers will finish second in conference standings and be a logical bowl choice although they earlier lost to Ohio, 21-0. In that event, the leaders would finish as follows:

W	L	T	Pct.
Michigan	5	1	0.833
Wisconsin	4	1	0.750
Ohio State	4	2	0.667
Minnesota	3	3	0.500

If Michigan and Ohio State tie Saturday, while Wisconsin beats Minnesota, the Badgers will share the conference crown, but then Ohio presumably would be the bowl choice as a co-champion with a win over Wisconsin. That final standings would be:

W	L	T	Pct.
Michigan	4	1	0.750
Ohio State	4	1	0.750
Wisconsin	4	1	0.750
Minnesota	3	3	0.500

Minnesota with a current 3-2 record cannot squeeze into the title picture no matter how Ohio State fares. But the Gophers, with the combination of a win over Wisconsin and an Ohio defeat by Michigan, can finish tied for second with the Buckeyes each with a 4-2 record.

Since Minnesota pummeled Ohio, 27-0, in mid-season, the Gophers in this case seemingly would be a cinch to get the bowl bid. If Ohio ties and Minnesota wins Saturday, then as co-champions with Michigan, the Buckeyes theoretically would get the nod over the runner-up Gophers.

Two other conference windups Saturday include the Old Oaken Bucket battle between Purdue and Indiana at Bloomington and the traditional neighborhood scrap between Northwestern and Illinois at Champaign.

# Michigan Outpaces Lujack, But Lions Lose To Bears, 27-24

Chicago, Nov. 14 (P)—A new passing star emerged from the 27-24 defeat the Detroit Lions took Sunday from the Chicago Bears.

Frank Tripucka, who joined the Detroiters only last month, bested the Bears' Johnny Lujack in one of the fiercest passing duels of the national football league season.

Playing at length for the first time since joining the Lions, Tripucka connected on three touchdown heaves. All told, he hit on 15 of 32 passes for 222 yards.

It was the seventh defeat in eight league starts for the Lions, but gave promise that they might be a little rougher from here on in.

The best that Lujack could do to match his ex-Notre Dame teammate was two touchdown throws, hits on 11 of 23 aerials, and a total of 172 yards.

The victory was the fifth in eight starts for the Bears and kept them in the running for at least a share of the western division title.

Tripucka's first scoring pass went four yards to Bill Dudley in the first period. The Bears earlier had made seven points on a 79-yard march, with George McAfee going 12 yards around end for the score.

His other two point-tallying throws both were 35-yard heaves to Cloyce Box, late in the fourth period. Combined with Dudley's second quarter field goal and three conversions, they put the Lions close, but not close enough.

A fumble by Don Doll on the Lions' 18 set up the second Bear score. Lujack passed to Jim Keane for 16 yards and the touchdown that made the halftime score 10-14 favoring Chicago.

Midway in the third period, another Lujack pass, this time a 59-yard play to Ken Kavanaugh. In the finale, Ed Cody intercepted a Tripucka pass and ran it back 38 yards for the fourth Bear score.

# Rangers Tighten Up, Gain 1-1 Tie With Red Wings

New York, Nov. 14 (P)—Tired of being mauled by the Detroit Red Wings, New York's Rangers tightened up their defenses last night and played the National Hockey League's 1-1 tie.

The deadlock left Detroit two points ahead of second-place Montreal, which locked in a scoreless battle with Chicago.

It was the Wings' fifth game in a row without defeat, and it was a disputed goal that gave the New Yorkers their tie.

The Rangers, with Don (Bones) Raleigh and Edgar LaPrade in the lead, struck hard in the third period. At the time they were trailing 1 to 0.

Midway in the stanza, they drove furiously at the Detroit goal. Players from both teams got into the mad scramble and before it was over Raleigh had pushed the puck in.

He and Red Wing Goalie Harry Lumley both were knocked down. Lumley jumped up and began to protest the score. Several Detroit teammates joined him, but Referee Jim Primeau ruled the goal was good.

The Detroiters got their only goal near the end of the second period. Gordie Howe fired a sharp shot at New York goal-tender Chuck Rayner, who made a spectacular save. Then Ted Lindsay of the Wings took a rebound and flicked the puck to Captain Sid Abel. The Detroit center rammed it past Rayner for a score.

The Rangers' showing in this game was their best of the season against Detroit. In previous encounters they lost 6 to 1 and 7 to 0. They haven't had a victory in their last seven games.

Eleven penalties—six for Detroit and five for New York—were called during the rough contest.

# Saturday Stars

Bob Williams and Bill Barrett, Notre Dame—Williams threw 22 passes, completing 13 for 198 yards and three touchdowns in directing Notre Dame to 42-6 triumph over North Carolina. Barrett scored three times.

Jack Mackmull, Army—Converted after each Army touchdown in Cadet's 14-13 triumph over Pennsylvania.

Billy Rye, Minnesota—Chucked one touchdown pass and scored twice to pace Minnesota to a 24-7 triumph over Pittsburgh.

Eddie Salem, Alabama—Scored twice and converted twice to feature Alabama's 20-7 conquest over Georgia Tech.

Doak Walker, SMU—Scored three touchdowns, kicked three extra points, passed for 113 yards and one touchdown, carried ball 18 times for 98 yards and averaged 49-0 yards per punt in S. M. U.'s 34-6 victory over Arkansas.

Dufek smashing for 83 yards on 22 carries, rolled to 202 net yards on the ground while the Hoosiers were only able to get 10.

That was the story. Indiana settled for a fine showing against one of the best squads in the conference. Anderson caught four passes to boost his season total to 19 and rub out the conference mark of 16 set in 1945 by Purdue's Bob Canfield.

ALL-AMERICA HUDDLE—Co-captains end Leon Hart, left, and tackle Jim Martin, Notre Dame's foremost All-America candidates, flash gentle smiles at Betty Lou Rupert, South Bend winner of All-America type talent search.

# Overconfident Spartans Bow To Oregon State, 25-20

Arrowhead Springs, Calif., Nov. 14 (P)—The sunshine of California was welcomed today by the flying Michigan State football squad beaten 25-20 by Oregon State in rain-soaked Oregon.

The Spartans were glad to quit Portland, scene of the surprising upset engineered by the eager Beavers led by former MSC end Coach Kip Taylor.

The 36-man squad and 20 other members of the official party left Portland in their chartered plane shortly after noon Sunday and arrived here four hours later just as the sun was setting behind the San Bernardino mountains.

En route they circled snow capped Mount Hood, saw Crater Lake, went over San Francisco's Golden Gate bridge and cruised across Los Angeles growing territory. Their next four days will be spent at the Plush Arrow Head Springs hotel.

Play Saturday Night

Another plane hop to Tucson is planned for Thursday. There will be a workout under lights that night in preparation for a night game Saturday against Arizona State.

The question everyone in the party asked was—"What happen?"

"What happened was that we got beat," was Coach Biggie Munn's answer. "They were up and we were down. We have no alibis."

There were a number of contributing factors, however.

Michigan State was overconfident. The Spartans were in poor physical shape after the plane trip, the long season and the punishment taken from Notre Dame. Penalties hurt them at crucial times. Five fumbles and three pass interceptions didn't help.

But most of all the beating was due to superb play of a hopped-up outfit led by a man who knew his opponent inside out. And the win made Taylor the toast of the coast in a section very jealous of midwestern football prestige.

Complete Surprise

For today, Munn planned only a brief limbering up session on the hotel golf course. The scouting report on Arizona State and game movies of the Oregon State game will be studied.

The upset was a complete surprise to the 22,232 fans in downtown Multnomah stadium, the sports writers, the men who made the betting odds, and everyone connected with both schools.

Michigan State jumped into a 13 point lead on touchdowns by Sonny Grandelius and Frank Waters while the Beavers made only three yards from scrimmage. The scoring drive totaled 42 and 48 yards. Previously a 70-yard MSC march was stopped by fumbles.

Ken Carpenter scored for Oregon State to make it 13-7 at the half. Oregon State banged in another one at the start of the second quarter, helped by a penalty that gave Taylor's boys the ball on the Spartan 42.

No Serious Injuries

After the kickoff a west coast Irishman named Steve McGuire made five points on a field goal and by blocking a punt for a safety. Lynn Chandois intercepted a pass and ran 51 yards, then went over two plays later to put MSC ahead 20-18.

But Carpenter, Oregon State pet all American nomination, scored again. And in the last 14 minutes two pass interceptions and a 6-3-2 OSC defense kept Michigan State from pulling out of the hole.

An after-game check up showed no serious injuries. Gene Glick of Saginaw was hit again on his fragile knee but walked away from the stadium. Chandois ruptured a blood vessel in the bicep of his left arm but also will be on hand against Arizona State.

The team promises to win this last one.

# Hillsdale Finishes Season Undefeated; Soo Tech Is Downed

By the Associated Press

Hillsdale college tucked its MIAA championship away today and lent an attentive ear to possible bids for a bowl game.

Coach Jack Petoskey's team won its eight straight Saturday, a 21 to 7 decision over Albion.

It has only one game left—with Indiana State this Saturday—and is favored to win handily.

Hillsdale supporters urged that the team seek a bid from one of the smaller bowl games.

They argued that not only does Hillsdale rate as the only undefeated college team in the state, but it also has Bill Young.

Young gained only 10 yards Saturday but netted a touchdown and three extra points to boost his season's total to 97, well up among the nation's leaders.

The win over Albion gave Hillsdale a 5-0 record in MIAA competition. Hope finished in the runner-up spot with a 4-1 record by beating Kalamazoo, 35-13, Saturday.

Soo Tech lost to Olivet, 13-7, Saturday.

# Packers Lose Again; Conerly Passes Giants To Easy 30 To 10 Win

Green Bay, Wis., Nov. 14 (P)—The Green Bay Packers, bested 30-10 Sunday by the New York Giants, have new respect for the throwing arm of chucking Charley Conerly.

The former Mississippi star connected on four touchdown passes—three of them to Gene Roberts—to lead the visitors to victory before 20,151 fans at city stadium.

His passing average, 15 of 29 for 345 yards, might even have been improved except for an overcast sky that made visibility near zero in the last quarter. Even the stadium floodlights didn't help.

The Packers were never really in the ball game after the New Yorkers piled up a 10-0 lead at the first quarter.

But they did manage a 27-yard field goal by Ted Fritsch in the second period, and a touchdown in the fourth on Ralph Earhart's 57-yard punt return.

The Conerly-Roberts' combo clicked near the tail end of the first period. Charley hit Roberts with a 20-yard heave, and Choo-Choo scooted the other 25 yards. Ben Agajanian added a field goal from the 31-yard line moments later.

In the second, Conerly whipped another pass 41-yards to Roberts for another score. The duo repeated again at a six-yard distance—the next time they got the ball.

Bill Swinicki's struggle with two Green Bay defenders paid off after the lights were turned on as he grabbed another Conerly pass in the end zone.

# Build Fire Under Greene As NBA Chief

Miami Beach, Fla., Nov. 14 (P)—The National Boxing association opened its annual convention today with an undercurrent movement to unseat Abe J. Green as the national commissioner.

Some 150 delegates representing 80 member organizations—the largest representation in the NBA's history—will consider ring insurance for worn out fighters and standard manager-fighter contracts at the business session today.

The entire group travels to Havana, Cuba, Tuesday to resume business sessions, elect officers and adjourn Wednesday.

Eddie W. Bohn, Denver, Colo., chairman of the Colorado Athletic commission, is spearheading a movement to oust Greene on the grounds he has "grabbed too much publicity" during the past 10 years.

"There are about seven states that think Greene is getting in too solid. We all recognize he has done a great job for boxing, but his time someone else took over. Why, the president is just a glorified office boy to Greene," Bohn said.

# Powers, Rapid River Meet In Basketball Opener Tuesday Night

Powers-Spalding, Nov. 14 — Coach Zigmund Shesky's Powers-Spalding high school quintet will open its 1949-50 basketball season by playing host to the Rapid River high school five tomorrow night.

Returning letterman at Powers are Ernest DallaCosta, Lloyd Fazer and Bernard Kane. The latter two have not been out as yet because of injuries. Fazer is the only returning regular. Lost by graduation were Harold Nelson, center; Bob Corrivau and Gerald Ravet, forwards, and Glenn Arnold, guard.

Leading prospective candidates at Powers are Don O'Neil and John Henderson, freshmen; Jack Hoppe, Bob Lawrence and Dave Lawrence, sophomores and Dwight Sargeant and Joe Veeseer juniors. The entire team averages five feet nine inches. Six-footers on the squad are Sargeant, six feet one; Kane, six even, and Dave Lawrence, who squeezes in at six feet 3/4 of an inch.

Powers and Rapid River schedules for the entire season will be published tomorrow.

# Hermansville Foxes Tip Escanaba VFW

Hermansville, Nov. 14 — Hermansville's Silver Foxes, a contender for the Northern Wisconsin-Michigan Basketball league championship, opened its season with a 64-58 exhibition victory over the Escanaba VFW here Saturday night. Don Lewis topped the VFW scorers with 28 points on 13 field goals and two free throw, and Tony Machalk led Hermansville with 14 points. It was 33-28 at the half for Hermansville.

## Vincent McCarthy Life-Long Resident Of Marquette, Dies

Vincent J. McCarthy, 67, 242 West Michigan street, life-long resident of Marquette and a brother of John J. McCarthy of this city, died at St. Mary's hospital at 8 this morning. He had been a patient there for the past twelve weeks.

Mr. McCarthy was a retired machinist and switchman for the Duluth, South Shore and Atlantic. He belonged to St. Peter's parish and to the Knights of Columbus.

He is survived by two brothers and two sisters, John J., Escanaba; Edward J., Detroit; Mrs. Agnes Conway, Marquette, and Mrs. George Bergstrom, Daggett; six nephews and four nieces.

Funeral services which Mr. and Mrs. John J. McCarthy, Mr. and Mrs. William McCarthy, Edward McCarthy and John Shanahan will attend will be held at Marquette Thursday morning.

## Straits Ferry Jam Cleared Sunday Night

(Continued from Page One)

shotgun only has been permitted for two years, only one hunter in 14 has been successful.

Conservation officials said there was no reason yet, at least, to change their early predictions that this year's take would be close to the 114,000 deer shot in the record 1947 season.

Mostly due to a mild winter last year and few if any starvations, the deer population is up all over the state. Conservation officers, making their annual survey a few weeks ago, reported seeing in the Upper Peninsula 46 deer per 100 hours of patrolling compared with 33 last year. In the southern lower peninsula, they saw 72 deer per 100 hours, compared with 43 last year.

Hunters, many of whom are already enjoying the inimitable atmosphere of the deer camp, were advised to plan their campaigns on a different basis than ordinary years.

I. H. Bartlett, conservation department deer specialist, has pointed out that the acorn crop failed this year due to late frosts last spring. Where deer in normal years are often found bunched on oak ridges or plains gorging on acorns during the hunting season, they are more likely this year to be still on the summer range, Bartlett said.

## GAMBLERS ON BOATS

St. Ignace, Mich., Nov. 14 (AP)—Six Detroit men were held in the county jail here awaiting arraignment today as professional gamblers after being arrested by state police detectives dressed as hunters on the State Ferry Cheyenne.

State police said they began to receive complaints late last week from the crowds of hunters crossing the Straits of Mackinac for the opening of the deer season that gamblers were operating on the boats and wherever the hunters congregated.

They had also received a tip from Detroit police, they said.

The six were arrested last night just as a game was getting under way. In their possession were found 146 sets of loaded dice, \$1,433, and some obscene movies, the detectives reported.

The accused gamblers were found to have set up headquarters in five rooms in an Alpena hotel.

The men under arrest were identified as Elmer F. Smith, 50; Hugh E. McManaman, 42; John W. Wimer, 63; Patrick J. Thibodeau, 42; James D. Lathrem, 55; and Edward D. Maskeny, 36.

## Detroit Only Game Away From Missouri Valley Grid Title

Detroit, Nov. 14 (AP)—The University of Detroit—with a 31-14 win over St. Louis university under its belt—is just one victory away from a Missouri Valley conference crown.

All the Titans have to do to claim the title is to trounce Wichita in their Thanksgiving Day finale. They joined the conference only this year.

With Fullback Mike Kayserian showing the way, the Detroiters got off to a fast start over the Billikens, scoring two touchdowns in first 12 minutes of the game.

St. Louis, on the running of Ed McCluskey, came back to score seven pointers in the second and fourth periods, but never were able to overcome the Detroit head start.

The game was a rough, tough affair, with fist fights developing several times. Bill Guay of Detroit and Gene Mueller of St. Louis both were banished for fourth period battling.

## BIG PIN LEAD

Detroit, Nov. 14 (AP)—The Detroit E & B team takes a sturdy margin of 776 pins into Chicago this weekend as it resumes play with rolling on their home court, the Detroiters took 11 out of 12 games from the visitors, the 1948 national champion. Fred Bulack had a high of 668 for the winners and Joe Kristoff hit 693 for the losers. The two teams meet at Samuelson's Arcade in Chicago next week for the deciding 12 games.

## SIX TICKETS IN HAUL

Detroit, Nov. 14 (AP)—Burglars who broke into the Meir Brass and Copper Co. over the weekend got an unexpectedly rich haul. Six tickets to the Michigan-Ohio State football game.

## Briefly Told

**Road Commission**—The Delta county road commission met today in its offices at Wells. Business included the hearing of a delegation and the meeting was expected to continue into the afternoon.

**House Permits**—Permits for construction of new dwellings have been issued to the following: Edward J. Meyer, 1820 10th avenue south; Andrew Cretens, 1401 N. 22nd street; Tom Irish, 905 S. 16th street; and Joe Nolden, 1209 8th avenue south.

**Drunk Driving**—Patrick Finlan, Chemical Plant location, pleaded guilty in justice court this morning to a charge of driving an automobile while under the influence of liquor. He was fined \$50 and \$8.25 court costs. Finlan was arrested Saturday evening on Washington avenue by local police.

## Hockey Fans Clamor For Return Of Extra Play In Case Of Ties

By The Associated Press

National Hockey league fans were clamoring louder than ever today for the return of the overtime period to regular season games that end in a deadlock.

Three games were played in the loop last night and two of them ended in stalemates after 60 minutes of play making it 10 ties in 39 games so far this season.

The only encounter decided was the Boston Bruins' 4-2 triumph over the Toronto Maple Leafs. The Detroit Red Wings and the New York Rangers played to 1-1 standstill and the Montreal Canadiens and the Chicago Blackhawks battled to a 0-0 tie.

Overtime was abandoned during the war because of travel conditions and never has been returned although the regular schedule has been increased to its present high of 70 games.

Travel conditions, according to the league, remain as one of the reasons it refuses to reinstate the popular overtime period. It is claimed that in the past a train would stand by for an hour to two hours for a team. But today the railroads seldom wait longer than five minutes and as a result overtime is impossible.

## Angola, Ind. Student Held In Chloroform Attack On Girl, 9

Angola, Ind., Nov. 14 (AP)—A sophomore engineering student at Tri-State college was in jail today for questioning in connection with the chloroforming and rape of a nine year old girl.

Police Chief Paul Tague identified the student as Benedict L. Driscoll, jr., 22, of Newport, R. I., who he said was found with the child and captured by her father Saturday night. Police withheld identity of the girl, who was in a hospital. She was expected to recover.

Tague said Driscoll admitted chloroforming the child but denied raping her.

Tague said Driscoll told officers he took the child from her father's parked car in front of her father's restaurant as she slept. He carried her to a storeroom over the restaurant by an outside stairway and put a chloroformed rag over her face when she awakened.

## CONSUL STRICKEN

Calgary, Alta., Nov. 14 (AP)—Charles E. B. Payne, 56, former United States consul here, died in a hospital Sunday following a lengthy illness. He had planned to go to Sarnia, Ont., today.

Born in Marquette, Mich., Payne joined the U. S. foreign service in 1920 as vice-consul and was first posted to Fort William.

## Norbert Murphy Wins Essay Contest

Kevill Murphy, 1115 Ludington street, received fourth prize in a national essay contest on "Why Not Employ the Handicapped?" sponsored by the Disabled American Veterans. The Escanaba student who is in his first year at St. Norbert's college, DePere, Wis., received a cash award of \$25 and a letter of commendation from the national president of the organization.

## Mailman Drowns Hauling In Fish Nets At Muskegon

(By The Associated Press)

A Muskegon mail carrier who worked part time as a commercial fisherman drowned Sunday when high winds overturned his 16-foot fishing boat on a Lake Michigan sandbar.

Michigan's weekend accident toll also included six traffic deaths and a Kent county baby who strangled to death in a collapsible bathtub.

The infant was the eight-month-old daughter of Mr. and Mrs. Charles H. Bush of Sand Lake.

Alden Versaw, 33, was the victim of the fishing tragedy about a mile south of Muskegon. He and Gus Goldberg, also 33, had rowed out to gather nets when they hit the sandbar.

Goldberg, who made his way safely to shore, told coast-guardsmen his companion had been wearing heavy boots and apparently was caught in the undertow and dragged down.

A coast guard boat sent out to get the nets also capsized on its first trip. The craft completed the task on the second try.

## Clash With Russians Near, Says Prophet, But U. S. Will Win

Detroit, Nov. 14 (AP)—The fabulous prophet Jones says a showdown with Russia is not far off. The right Rev. Dr. James F. Jones, a Detroit Negro who claims a spiritual following of 6,000,000, told reporters Sunday the Lord gave him the word on September 10 while he stood on Red Mountain in Colorado.

He put it in these words: "Soon, very soon, a certain nation planning something against our country will be defeated in that thing."

"God has told me to tell Americans to dispense with their fears, for the American way of life shall not perish."

"America has nothing to fear—nothing, nothing."

"Prophet Jones has not lied."

## Date On Tombstone Wrong By 7 Weeks For Allegan Farmer

Allegan, Mich., Nov. 14 (AP)—The date on Leroy Irwin's tombstone is wrong by seven weeks. Last year the 92-year-old farmer erected a marker dated 1950.

But he died suddenly Saturday night, just three weeks after his marriage to the former Mrs. Mary Sage, 62.

Pneumonia is believed to have been the cause of his death.

When he put up the tombstone Irwin explained that he was not being morbid, just practical. A widower with no children, he feared no one would mark his grave. The date on the stone did not matter, he told friends.

On his wedding day, just three weeks ago, his feelings had changed. He told fellow townsmen he hoped to "beat" the date.

## Mrs. Fred Swank Gives Recitations At Kiwanis Club

Mrs. Fred Swank of Escanaba entertained members of the Kiwanis club at the House of Ludington this noon with two dramatic recitations. Mrs. Swank directed the second annual Kiwanis Minstrel show, which was staged last week.

Nyal Witham announced that Kiwanis Kids day would be held throughout America on Saturday, Nov. 19. A special broadcast by Jimmy Fidler and a galaxy of movie and radio stars will be given over WENR and the ABC network 10 p. m. EST Thursday, Nov. 17. More than a million dollars is the quota to be raised for underprivileged boys and girls work in the nation.

## Little Girl, 4, Saves Brother And Sister In Fire Near Muskegon

Muskegon, Nov. 14 (AP)—Four-year-old Margaret Davis' matter of fact rescue of a younger brother and sister from the family's burning home Thursday was still the favorite topic of conversation in the Ravenna and Moorland communities today.

Margaret was being praised as a true heroine. Church women in both communities were busy sewing clothing for her and other members of the Davis family who lost all their possessions in the blaze.

Margaret is the daughter of Mr. and Mrs. Herbert Davis, of Moorland, a community 12 miles east of Muskegon. Her father was at work here, and her mother was outside doing chores when fire broke out in the home.

But calm, cool Margaret was equal to the occasion.

She carefully gathered up her 10-month-old brother, Dale, not forgetting to wrap a blanket around him; then took sister Alice Marie, age two, by the hand, and walked safely from the burning house to the home of a neighbor across the road.

## Garssons And May Ordered To Start Prison Sentences

Washington, Nov. 14 (AP)—The supreme court today in effect ordered former Rep. Andrew J. May and the Garsson brothers to begin serving prison sentences imposed on them for wartime bribery and conspiracy.

The tribunal for the second time refused to review the trials which resulted in eight to 24-month prison terms for May, and Henry and Murray Garsson.

May, now 74, was charged with accepting \$53,000 from the Garssons for helping them to get war contracts. At the time the Kentucky representative was chairman of the House Military committee.

The supreme court on October 10 denied May and the Garssons a review of their trial. The three then asked the court to reconsider its denial. Chief Justice Vincent and Justice Clark took no part in the consideration of the requests.

## THEATER OPERATOR DEAD

Detroit (AP)—Charles Rothstein, whose varied career made him well known in Detroit newspaper, political and amusement circles, died Sunday after a long illness. He was 64. Rothstein was a reporter for the old Detroit Tribune and later license and property clerk of the police department. Still later he became operator of theatrical enterprises in Detroit and nine other midwest cities.

## Rep. Bennett Insists On Deportation For Houghton Professor

Marenisco, Mich., Nov. 14. (AP)—Rep. John B. Bennett (R-Mich.) will insist on the deportation of Dr. E. V. Sittler, ousted professor of German at Michigan Tech.

Bennett had charged him with being a former Nazi and with broadcasting for the Hitler government during the war.

Dr. Sittler Saturday charged Bennett with "malicious misinterpretation of facts concerning me," and declared that he would insist that the college fulfill its financial obligations to him.

Rep. Bennett said Sunday that he had no comment to make on Dr. Sittler's statement other than that he would continue to seek the removal of the 36-year-old father of six from this country.
